THE AWNING  
*more than  
sun protection*

**Individual choice of colours**

Your house reflects your own personality. weinor can offer you a wide spectrum of fabulous frame colours to match it. That way you can match your awning, your conservatory or your patio roof to the façade, the windows or even your garden furniture.

*Just the right colour ...*

... for your awning, your conservatory or your patio roof

**weinor range of colours**

Whether you prefer bright spring colours or soft, subdued autumn tones – with weinor you will find just the right shade – sorted by season – to suit your home and furnishings, and so to create an overall feeling of harmony.

**Exclusively from weinor:  
a big choice of colours**

Choose from 47 standard frame colours, 8 scratch-resistant and robust trendy conservatory colours (5% surcharge) as well as another 200 special RAL colours for your awning.

*Consistent colour on all our products – all coated in the same place*

**Identical colours thanks to in-house powder coating**

The weinor high tech powder coating plants in Cologne and Moeckern make it possible: you can choose between 47 standard RAL impact and scratch resistant silky lustre colours for your weinor products at no extra cost. Modern technology and the highest standards guarantee top weinor quality. Even with different products (e.g. awning, lighting, heating), you can be certain that the colours will be identical and have exactly the same gloss level.

**Trendy conservatory colours**

Thanks to their scratch resistant surface, the eight trendy conservatory colours in quality metallic look, as shown above, are particularly robust.

**Finding the right colour is simple**

You will find inspiration and ideas with the new weinor RAL colour fans which show not only frame colours, but also house facades and patio surfaces. Your dealer's experienced staff will be pleased to advise you.

# The choice of colours is yours

Extra charge for trendy conservatory colours +5%, other RAL colours +10%, other structured colours +15% (added in each case to the basic price). Due to technical reasons, WiGa Trend colours can have shadow effects when awning is powdercoated.

Depending on the frame colour ordered, we supply all small parts, crank handles and gears for units with a crank mechanism in black (similar to RAL 9005), white (similar to RAL 9016) or grey (similar to weinor 7319). Since the addition of heavy metals in powder coatings was prohibited, a bleaching, especially with fire red (RAL 3000) cannot be completely eliminated, in spite of all the efforts made by the paint manufacturers to guarantee the colour stability.

We reserve the right to make technical alterations. For technical reasons the colours may appear slightly different in print.
