OUTDOOR WEATHER PROTECTION SOLUTIONS

BIOCLIMATIC ROOF SYSTEMS

An entirely bespoke and innovative system that completely enhances your business's outdoor dining area, a luxurious solution that becomes the focal-point for high-end outside spaces.

The ventilated roof consists of aluminium blades that adjust accordingly to the surrounding climate, allowing for the most comfortable of environments.

Gibus®

RETRACTABLE AWNINGS

A simple but effective system for creating shade quickly and elegantly with a sleek appearance, even when fully retracted into the cassette.

Create a pleasant, shaded area with designs, colours and branding suited to your business, with large sizes available to cover large outdoor areas where required.

PERGOLA SYSTEMS

Our range of pergolas offer a durable and convenient retractable roof system for various sized outdoor dining and business areas, all year-round.

These high quality pergolas can be specified or later equipped with retractable side options for additional shading, shelter from breezes as well as the segregation of space.

ENHANCED PERGOLA SYSTEMS

Open spaces or locations with heavier rainfall may require an enhanced pergola system, where the reinforced manufacturing and fabric thickness allows for greater durability.

Take advantage of the higher specification framework and use the pergola as a shelter for your customers all year round, retracting easily wherever required.

GLASS VERANDAS

The ultimate choice for outdoor spaces that need all year-round cover from the very diverse weather experienced in the UK.

With a sleek and welcoming appearance, a glass veranda makes a business's outdoor space wonderfully appealing and can be equipped with infrared heaters, spot lighting and blinds to create the most luxurious and comfortable experience.

UMBRELLAS

Offering durable and appealing cover for pubs, cafes and outdoor dining areas, large umbrellas are an excellent choice for many businesses in the UK.

Large umbrellas can be specified in a huge variety of colours, designs and shapes, as well as with heating and lighting to create a truly enhanced and pleasant environment.

BUTTERFLY AWNINGS

Butterfly awnings are an excellent choice for outdoor areas due to their appealing design and ability to cover large spaces.

Models are not only available to shelter customers from the sun, but the rain too, a very much appropriate option for outdoor spaces in the UK's unpredictable weather.

INNEX, OUTDOOR LIVING

FREESTANDING AWNINGS

An ideal solution where there is no building or framework to install a system directly onto, high quality free standing awnings allow for a covered outdoor space, wherever it may be situated.

There is a whole host of different systems available that are appropriate for various environments, with bespoke design options to align the system with your company branding.
