The textile pergola awning

Plaza Viva

Alfresco living in almost any weather conditions

10.00 a.m. Family breakfast on the patio.
 "It's going to be a beautiful summer's day!"

Plaza Viva Enjoy the outdoors, in almost any weather

20°C ☀️ WF 1-2

Beautiful sun shading even for larger spaces

You should enjoy your great summer's day on the patio without any worries. Plaza Viva provides the necessary shade so you can do just that. And in fact over **up to 30 m²**, for the whole family including friends. But Plaza Viva isn't just practical. It adapts to any house facade with its **modern, slimline design**. And the **huge selection of attractive awning fabrics** gives you the option of designing your outdoor space to your own personal taste.

Would you like to enjoy the open air? Then simply open your Plaza Viva to exactly the position you desire at the press of a button.

“This wind is fantastic!”

3.30 p.m. It's getting fresh, the awning simply remains open.

Plaza Viva Enjoy the outdoors, in almost any weather

26°C WF 6

Our tip: With the Plaza Viva **OptiStretch** version, the fabric is always held captive and the edges of the cover are prevented from billowing in winds.

Extremely stable even in windy weather

Yes, a little summer breeze is lovely. Especially if the awning remains stable despite strong gusts. Just like Plaza Viva. Thanks to the two front posts it is **extremely wind-resistant**. The stable structure guarantees that the pergola awning can remain extended **up to wind force 6** (Beaufort) and then also offers reliable sun protection too. Even with facades with not many load bearing substrates, like old buildings for example, the posts withstand strong wind loads consistently.

OptiStretch or Stretch – for a stable fabric position
 With Plaza Viva OptiStretch the fabric is held captive and on all four sides. The advantages: a highly tensioned fabric and no light gap on the sides. The basic version of the Plaza Viva Stretch is tensioned on two sides and there is a light gap between the fabric and guide channel. A strong rope tensioning system ensures even fabric positioning with both versions.

3.50 – 4.00 p.m. A brief summer shower.

“So what? We’re not going to get wet!”

Plaza Viva Enjoy the outdoors, in almost any weather

22°C ☁️ WF 1

Clever rain protection no need to leave your favourite spot

With Plaza Viva you remain dry as the rain water reliably drains off. Our recipe for success: the adjustable telescopic post and the water-repellent awning fabric (more about our fabrics on page 10). You can remain seated in your favourite chair or enjoy a family meal totally relaxed and **enjoying being outdoors in the rain.**

New: telescopic post for rain drainage

A minimum awning pitch is required to ensure that rainwater drains off reliably. However, it is not always possible to produce this during installation. The optional telescopic post helps here. You can lower it **using a gear handle** to achieve the required pitch in the rain.

1

2

Really flexible

When lowering the top part of the post using the gear handle, the load on the construction is reduced and it remains inherently stable. This is possible thanks **to the wall bracket with floating bearing and compensation joint on the upper part of the post.** Both guarantee that the pitch of the entire awning is ideally adjusted.

Figure 1: The wall bracket with floating bearing reduces the load on the whole construction when the telescopic post lowers the awning.

Figure 2: Thanks to the compensation joint on the post the awning construction can adjust flexibly to the new pitch.

Award-winning quality, maximum comfort

Anyone opting for weinor products can rely on top quality. Only high-quality materials are used.

Plaza Viva has been honoured with the **Iconic Awards 2019** in the Building Fixtures category for its modern, slimline design.

Honoured with:

Well protected

The all-round enclosed and robust **awning cassette** keeps the fabric and other component parts well protected from the elements. You can enjoy superb weather protection for many years.

Premium quality
made in Germany

Most definitely
an original product

Wonderful in design and aesthetics

Plaza Viva is designed so that almost no fixings are visible. As a result, the **awning design** looks slimline, modern and elegant. Turn your outdoor space into a hidden gem with Plaza Viva!

Quiet and consistent operation

The Plaza Viva **tension system** ensures optimum fabric performance and positioning. It includes, amongst other things, a new flat rope and the tried and tested weinor carriage system. The flat rope is **extremely quiet and durable**, the weinor carriage system features **quiet retraction and extension that is gentle on materials**.

9.30 p.m. Children in bed ... a glass of wine on the patio.

"We can sit on our patio well into the night enjoying a cosy atmosphere."

Light and warmth – for ultimate comfort thanks to LEDs and a heating system

Your options for great comfort: enjoy evenings on the patio under warm white **LED spotlights** that can be dimmed infinitely.

You can even enjoy your patio at cooler times with the **Tempura and Tempura Quadra heating system**. It can be retrofitted and is unobtrusively attached to the house facade.

Hand transmitter with display
BiEasy 15M Go! and BiEasy app

homecontrol®

Alternatively, you can also operate every technical element on your patio using io-homecontrol® from **somfy**.*

Convenient control by hand transmitter, sensor or app

Plaza Viva is fitted as standard with a drive without remote receiver. If you choose an awning with remote-controlled motor and **weinor BiConnect radio control**, you can really easily operate the sun protection, lighting and heating using the hand transmitter or BiEasy app for iPhone and iPad. The sun sensor makes the awning extend automatically – regardless of whether you are at home or not.

* With io-homecontrol® from Somfy dimming is not possible.

Additional attractive privacy and sun protection from the front

The Valance Plus from weinor is the perfect solution for dazzling light, especially when the sun is lying low in the evening. It can be lowered using the gear handle and then also offers reliable privacy protection. The Valance Plus is also available with the fabrics from the screens by weinor® collection that let light and air through.

Plaza Viva technical data

Max. width	6 m
Max. projection	5 m
Multi-unit systems	optional
Wind protection:	tested to wind force 6 (Beaufort)
Rain protection*	from a 4° pitch
Roof pitch	4° – 25°
Mounting alternative	installation on walls, ceilings and roofs possible
Motor drive	as standard

* The water draining effect using the telescopic technology is only achieved with a minimum awning pitch of 4° and when the telescopic post is completely lowered (exception: Valance Plus option. The minimum pitch required here is 5°). A telescopic post is not possible for the Plaza Viva with VertiTEx II. Reliable rain drainage is then only guaranteed during short showers from a pitch of 14°. Meets performance class 2 according to DIN 13561 resistance to water accumulation

Twice the weather protection cleverly combined

Plaza Viva with VertiTEx II – even more protection in one system

The universal VertiTEx II vertical awning extends the Plaza Viva with reliable sun, privacy, wind and glare protection – and in fact all round. Because the vertical awning can be mounted all around or on individual sides. Clever rail or zip technology ensures reliable lateral guidance. The vertical awning excels with an elegant, compact design that goes perfectly with the Plaza Viva. The cassette is available in round or square form. VertiTEx II is also available with the fabrics from the screens by weinor® collection that let light and air through.

Convenient control

Like Plaza Viva, VertiTEx II can also be operated using wireless technology with weinor BiConnect or io-homecontrol® from Somfy.
