PLAN. PROJECT. PERFECT.

A good plan: **outdoor living.** From markilux of course.

Outdoor living

Enjoying life outdoors, in the fresh air – that is pure quality of life. And, in combination with attractive sun and wet weather protection from markilux, this pleasure increases considerably.

A trend that restaurants, retail shops, industry and public institutions, such as nurseries, schools, hospitals and retirement homes, have long been aware of: they are now actively making the most of this extra quality of life for their guests, customers and employees.

Space available outdoors is being turned into a **high-turnover al fresco** dining area, a **place of retreat** for employees, a **shady play area** for children or a **place of recreation** where senior citizens and patients can relax.

There's a lot more inside here. For outside. Just ask us.

markilux

An aerial photograph of a city square, likely in London, showing a large, rectangular, white Markilux awning covering a significant portion of the square. The square is paved with a checkered pattern, and several people are visible walking around. In the background, there are buildings with windows and a sign that reads "GARRICK CHAMBER 0%". The entire image is overlaid with a red tint.
