

ERHARDT BS

ERHARDT BS

AN AWNING FOR EVERY APPLICATION

 **ERHARDT[®]
MARKISEN**

ERHARDT BS

ERHARDT BS is an open folding-arm awning. The fabric valance shields the folding arms from view.

ERHARDT BS-D

ERHARDT BS-D is the same basic model as the BS, but with an additional rain cover to protect the fabric from above. The BS-D is equipped with a high-quality tilting arm bearing to ensure precision closing.

ERHARDT BS-H

ERHARDT BS-H has a rain cover and an additional lower shell to protect the entire fabric and the mechanism. The BS-H is equipped with a high-quality tilting arm bearing to ensure precision closing.

ERHARDT BS »Deluxe« has a solid front profile instead of a fabric valance.

ERHARDT BS-D »Deluxe«

ERHARDT BS-H »Deluxe«

ERHARDT BS with Vario-Valance, which can be extended in height up to a length of 160 cm. The Vario-Valance is made entirely from Soltis fabric.

ERHARDT BS »Deluxe« has the Variovalant integrated within the solid front profile.

ERHARDT BS-D with Vario-Valance.

ERHARDT BS-D »Deluxe« with Vario-Valance

ERHARDT BS-H with Vario-Valance

ERHARDT BS-H »Deluxe« with Vario-Valance

ERHARDT BS

THE AWNING OF YOUR DREAMS

The ERHARDT BS is the ideal solution for every requirement, whether protected under a balcony or overhanging roof, free-hanging and exposed to everything the weather can throw at it, or additional shade from low sun thanks to a Vario-Valance. The ERHARDT BS can be used as an open folding-arm awning in a protected area, in the open thanks to its additional rain cover, and/or as a completely enclosed system that provides full protection for the fabric and the mechanism. For optimum overhead vertical protection from the sun and to give you the privacy you want, the ERHARDT BS »Deluxe« can be equipped with a Vario-Valance, which can be operated conveniently in the same way as the main awning via the wireless hand transmitter.

ERHARDT BS SYSTEM

ONE PRODUCT – MANY OPTIONS

Design

The sophistication of the ERHARDT BS lies in its simplicity and the modular concept – the level of protection and the design can be adapted depending on the requirements.

High-quality folding arms

The folding arms, made from extruded aluminium, ensure optimum fabric tension and are equipped with a maintenance-free stainless steel flyer chain as standard.

Vario-Valance for more protection

An optional Vario-Valance, which is operated independently of the main awning and can be extended by up to 160 cm, provides protection from low sun and prying eyes.

Assembly options

Every ERHARDT BS is available with wall bracket, ceiling mounting and rafter mounting options to provide a customised solution to meet the demands of every situation.

ERHARDT BS-D – with rain cover

The open folding-arm awning with rain cover offering basic protection for the rolled up fabric and mechanism from weather and dirt. The sleek drop profile with a valance provides a great deal of creative freedom, and the »Deluxe« version comes with an elegant designer drop profile.

**ERHARDT BS-H – with rain cover and protective profile**

The ERHARDT BS-H offers complete protection for the rolled up awning fabric and the entire mechanism. With this option, only the folding arms remain visible from below when closed.

**CE Made in Germany**

All ERHARDT Markisenbau products are made in Burtenbach, Bavaria. All-round service and continuous production control guarantee high quality.
