

Oublier  
*le* TEMPS

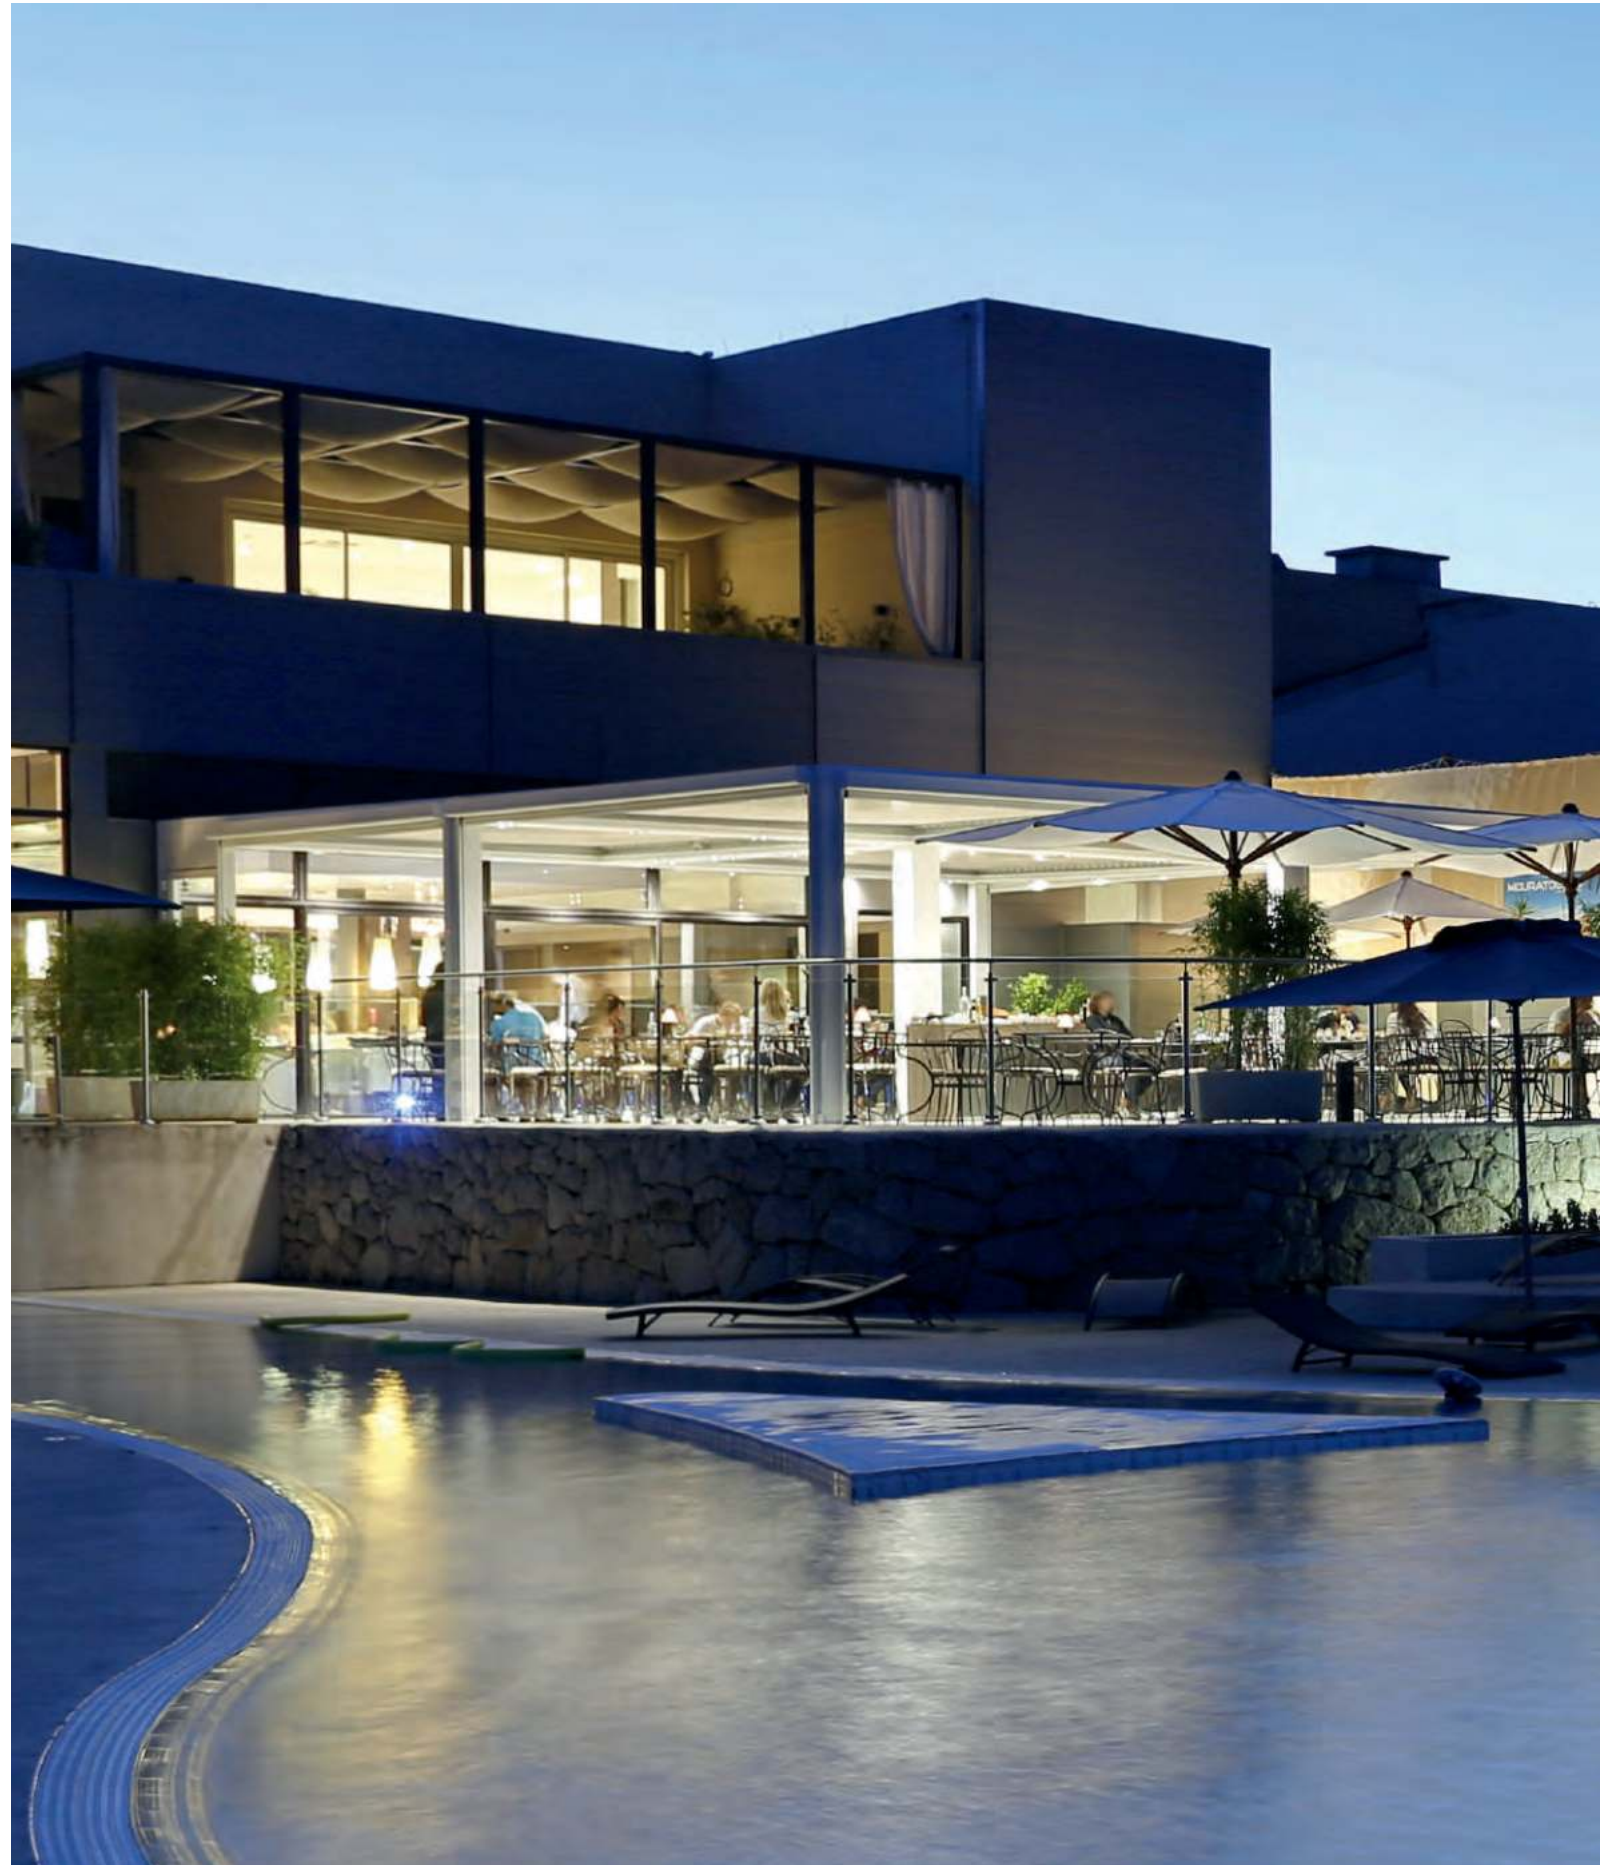

FORGET EVERYTHING YOU KNOW ABOUT PERGOLAS.  
 TODAY MARKS THE BEGINNING  
 OF A NEW CHAPTER.  
 ONE IN WHICH OUR VALUES AND DESIRES  
 DRIVE US TO INNOVATE AND SURPASS  
 OURSELVES EVERY DAY.  
 A CHAPTER WHERE THE BOUNDARIES BETWEEN  
 INDOORS AND OUTDOORS  
 HAVE BEEN ELIMINATED TO CREATE A NEW SPACE  
 WHERE FREEDOM REIGNS.  
 WHERE EVERYBODY IS FREE  
 TO TAME THE SUN  
 AND CREATE A DELICATE INTERPLAY  
 OF SHADOW AND LIGHT.  
 A CHAPTER WHERE OUR EXPERTISE  
 AND INNOVATIONS BECOME EXPERIENCE,  
 INVITING YOU TO FORGET THE SEASONS:  
 THE CHANGES IN WEATHER  
 AND THE PASSING OF TIME.  
 FORGET IT ALL, BECAUSE TODAY IS A NEW DAY.  
 ONE WHERE BIOSSUN WILL REINVENT THE PERGOLA.

# Get rid of unnecessary seating *and enjoy an operational terrace* all year round...

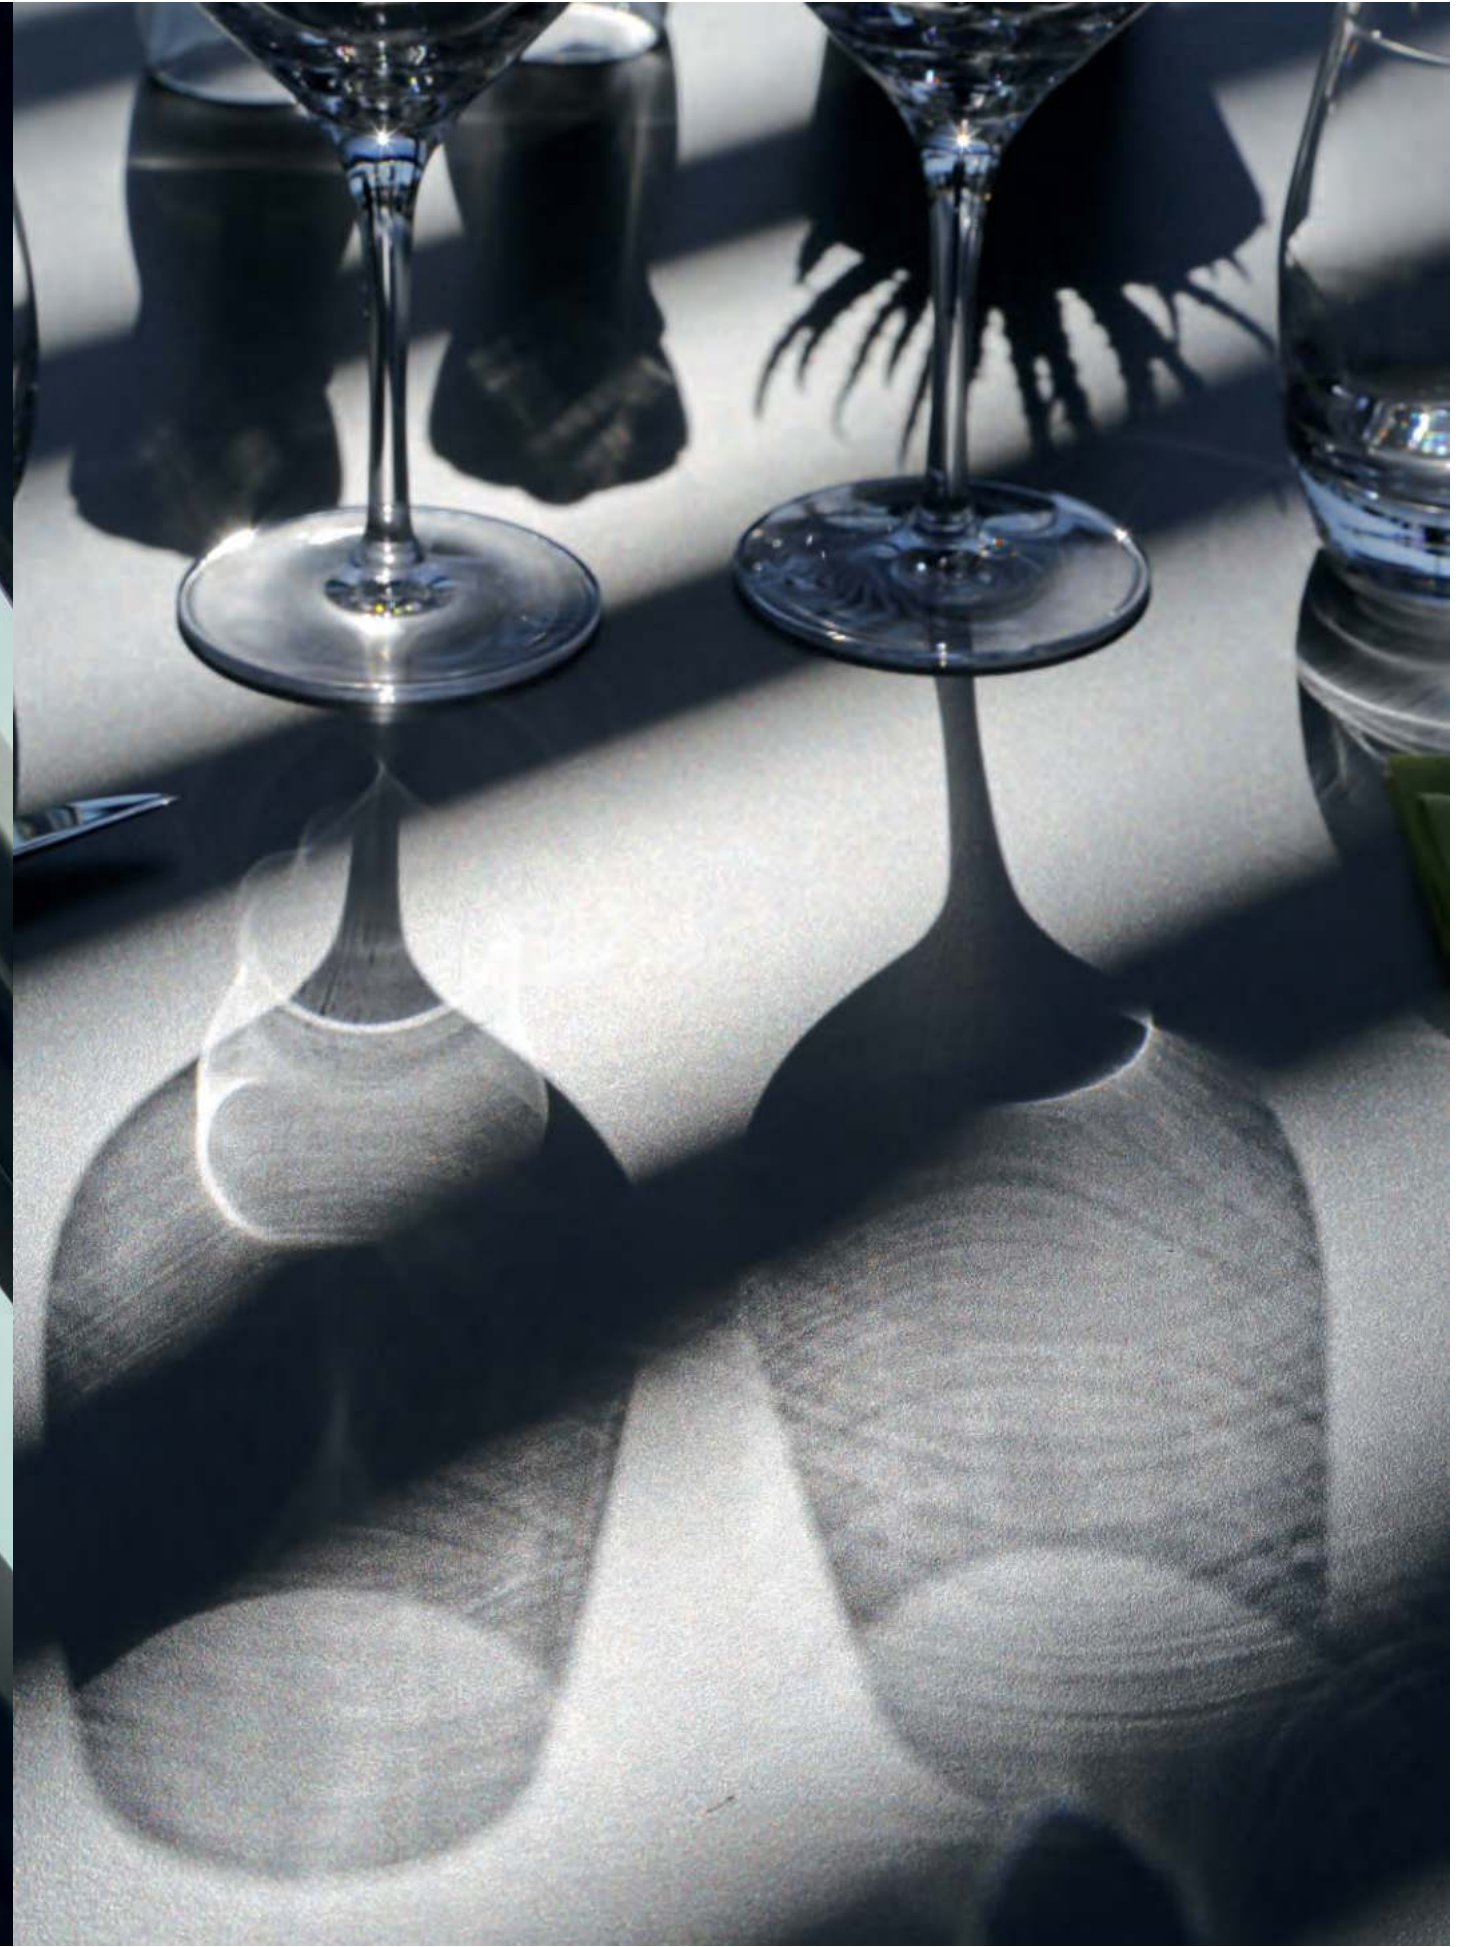

Driven by a strong culture of customer service and commitment, we help all establishments which are open to the public to develop an outdoor living space which measures up to their professional demands. Whatever the season, your terrace will be operational, enabling you to optimise your usable floorspace and maximise the number of covers.

Forget *the weather*  
outside.  
Forget *the passing*  
of time.  
*And enjoy a completely*  
*unique experience.*

**Bio ONE.**

Imagine a new interplay of light,  
offer a tailored service  
*delivering shade or sun,*  
and imagine a new art of outdoor living  
*with the **Bio ONE** bioclimatic pergola.*

*Bio ONE.*

The Bio One bioclimatic pergola brings a unique elegance to your terrace. Up to 6 m wide, it enables you to create different zones filled with light or shade. And imagine a brand new style of outdoor living.

Comfort for each and every table! Developed with and for professionals from the restaurant industry, this model allows slats to be oriented by zone.

**Slats can be individually oriented by zone.**

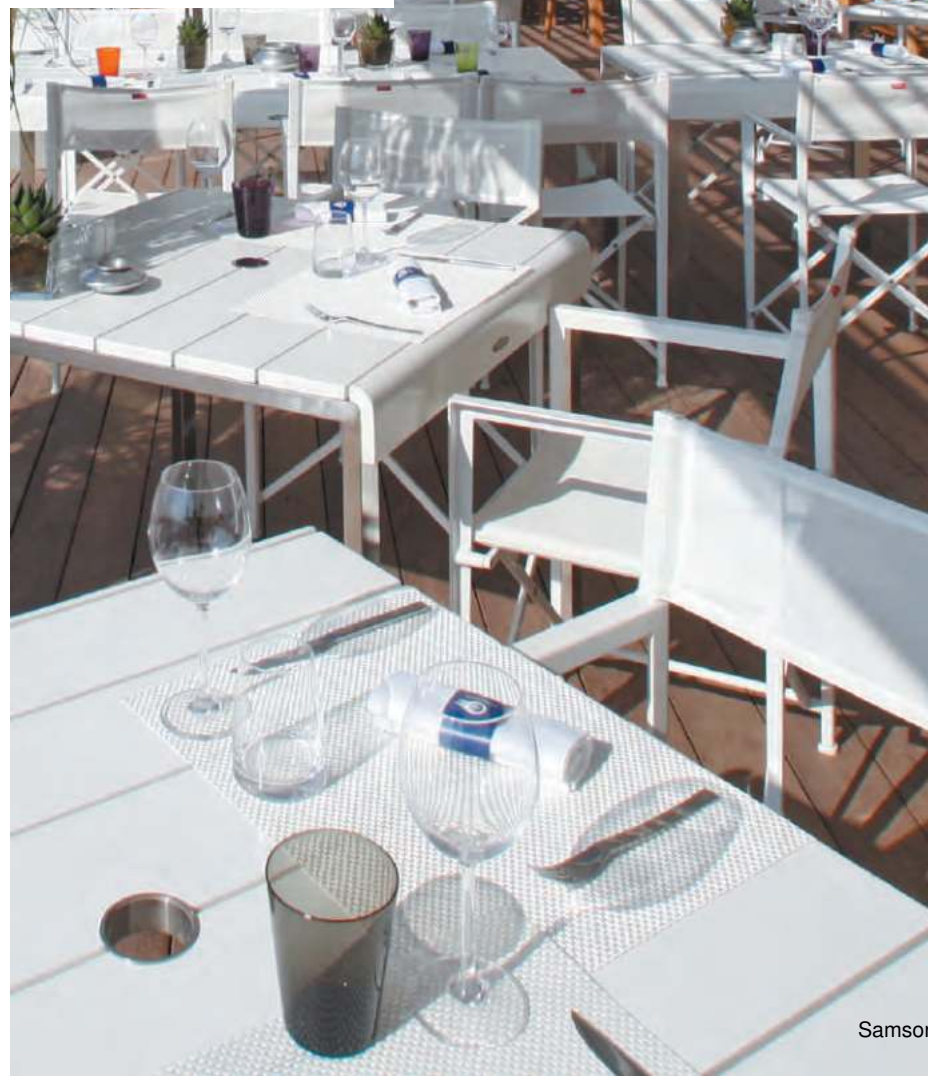

**Bluetooth activated by remote-control or smartphone.**

**Closes automatically in adverse weather conditions.**

**Unique patent.**

**350 colours and finishes and 50 architectural shades available.**

**Total integration of the ambient lighting.**

*Bio 230.*

Turn light into a source of inspiration,  
*and create a unique ambiance*  
with the **Bio 230**  
bioclimatic pergola.

***Bio 230.***

The Bio 230 bioclimatic pergola gives free reign to your imagination. With a maximum width of 7 metres, it fits in with the rhythm of your life perfectly, bringing a unique, tailor-made dimension to your terrace.

Up to 31.5 m<sup>2</sup>  
in single bay  
installation.

Bluetooth  
activated  
by remote-control  
or smartphone.

Double bay  
possible.

350 colours and  
finishes and  
50 architectural  
shades available.

Fully integrated  
lighting.

**Bio 120.**

Create a haven of peace,  
*play with colours*  
*and invent a new style of hospitality*  
with the **Bio 120**  
bioclimatic pergola.

***Bio 120.***

The Bio 120 bioclimatic pergola optimises the usable floorspace in your establishment whilst creating an intimate area for your clientèle. It is ideal for all projects covering a terrace up to 22 m².

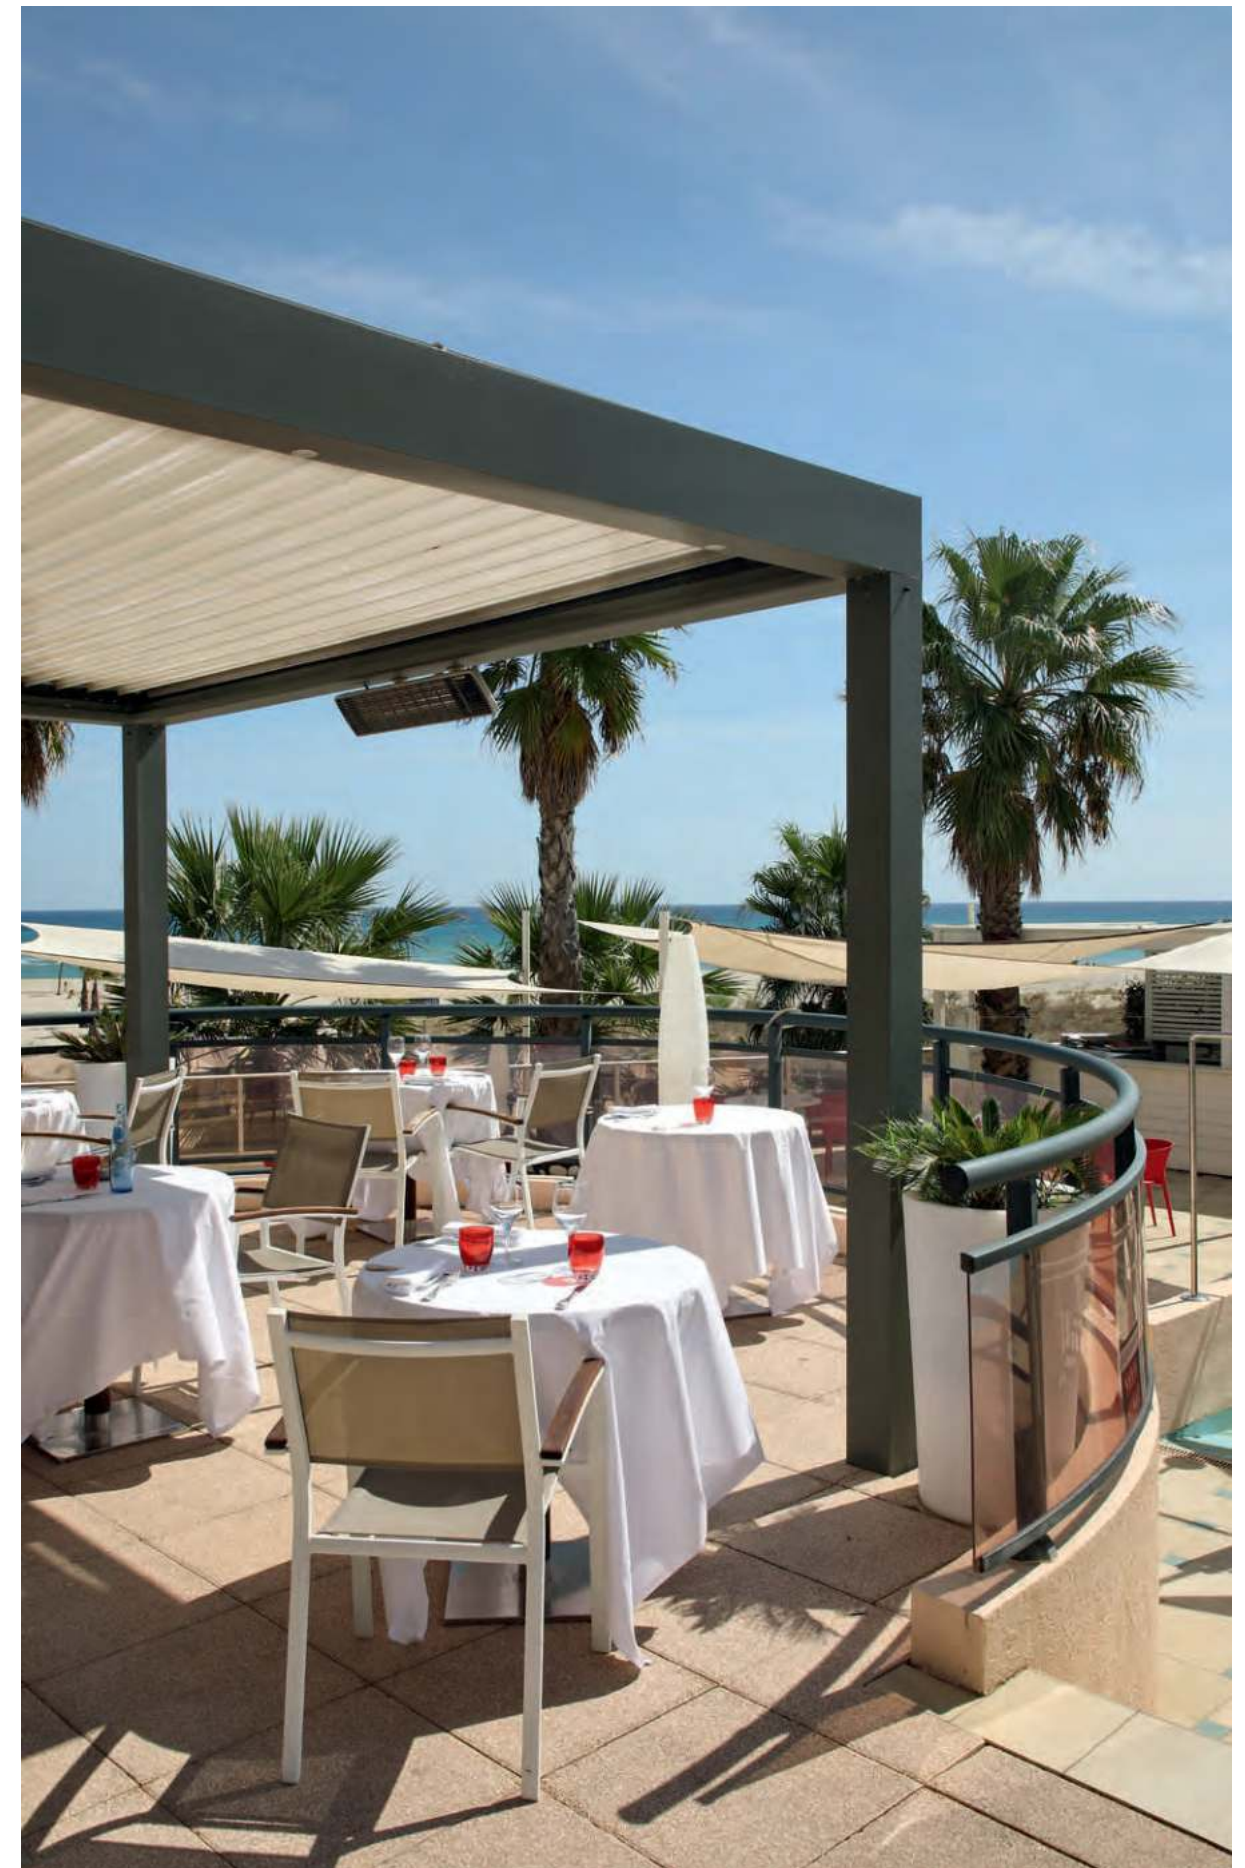

Installed as an island or against a wall.

Integrated LED strip lighting.

Bluetooth activated by remote-control or smartphone.

350 colours and finishes and 50 architectural shades available.

Forget the rain,  
forget the cold,  
*and enjoy a turnover  
unaffected by the seasons...*

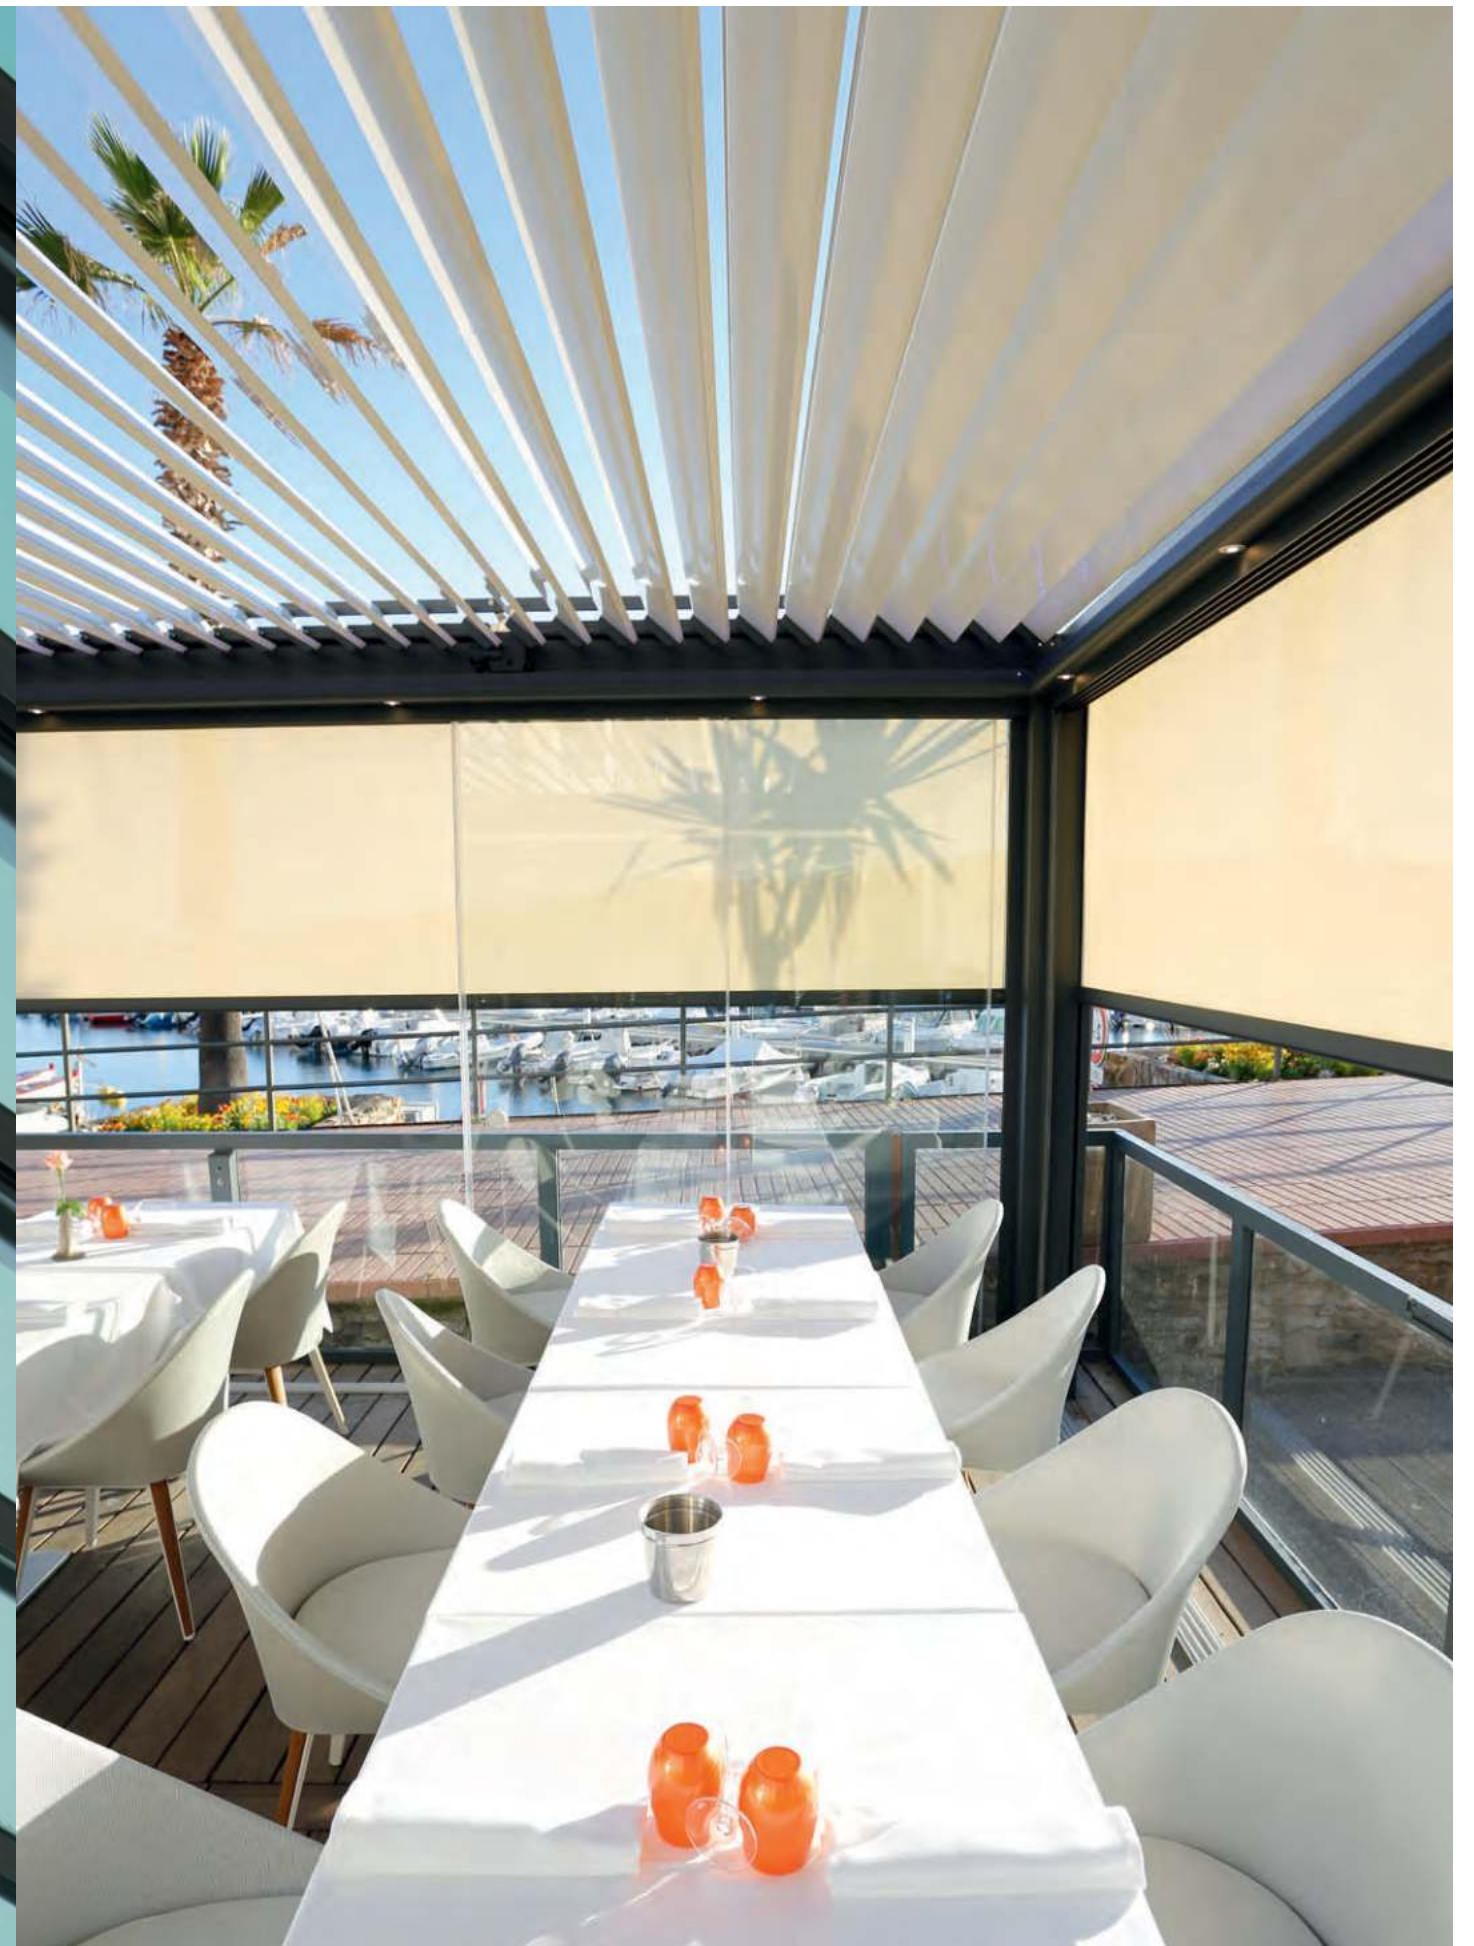

Fitting your Biossun bioclimatic pergola with closing or lighting solutions will allow you to adjust the atmosphere and transform your terrace into a space which can be used all year round. And forget the adverse weather events which can impact your activity.

Forget your worries,  
*and step into a  
new dimension.*  
Imagine  
*the perfect pergola  
for your needs.*

Make room for *the sun*,  
push back *the horizons*,  
and play with shade  
with the **e-MOTION**  
bioclimatic pergola.

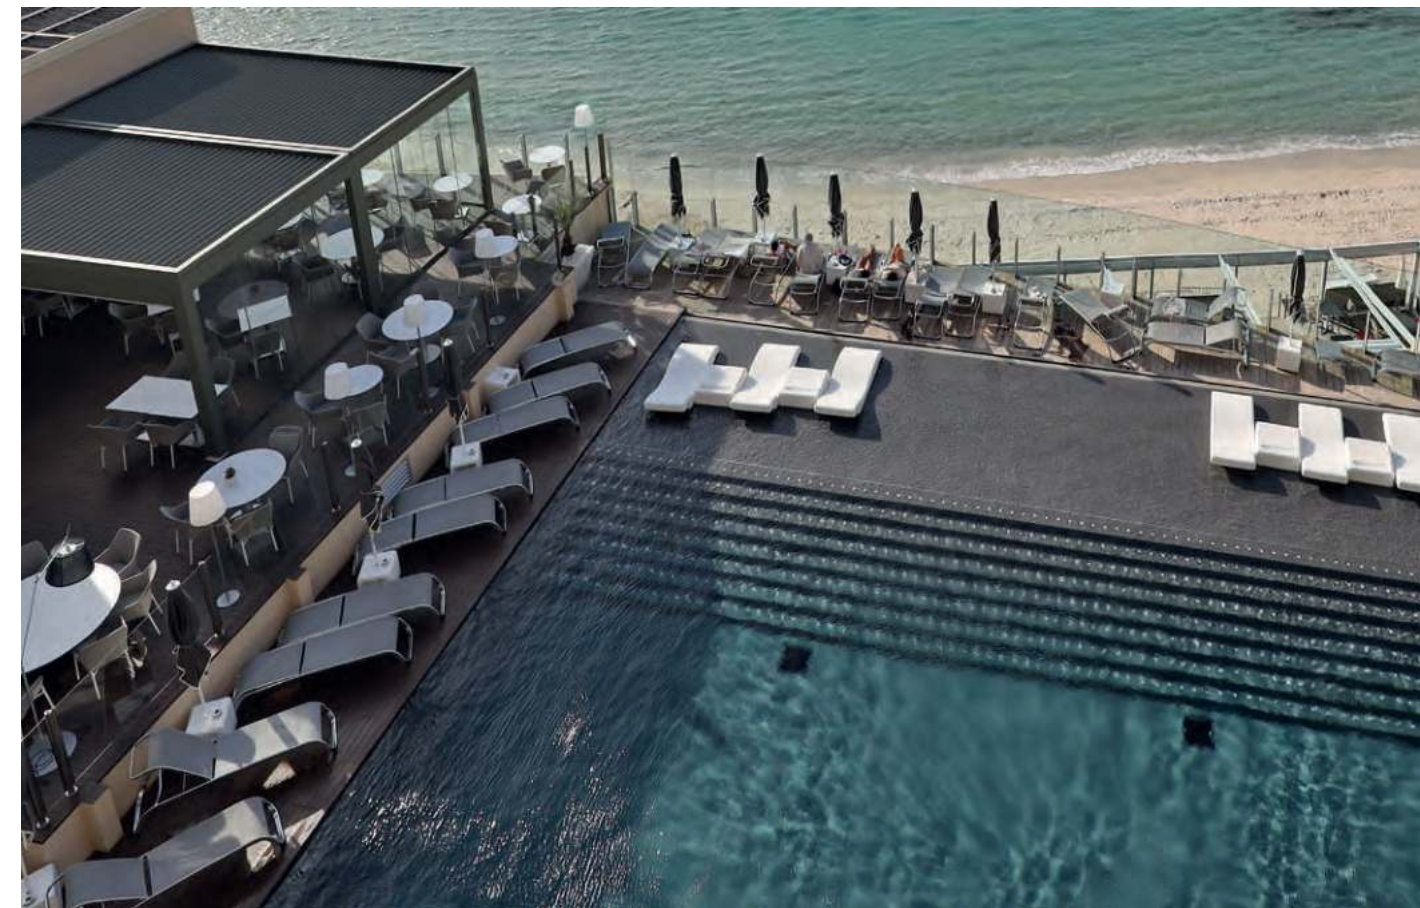

*e-MOTION.*

***e-MOTION.***

With the e-Motion pergola, you are completely free. Free to create your own light and shade by angling the slats of your bioclimatic pergola individually. Free to retract them fully and flood your space with sunlight or starlight. And free to tame the sun at any time of the day by controlling your pergola from your smartphone or tablet.

**Slats can be individually retracted and angled.**

**Bluetooth activated by remote-control or smartphone.**

**Closes automatically in adverse weather conditions.**

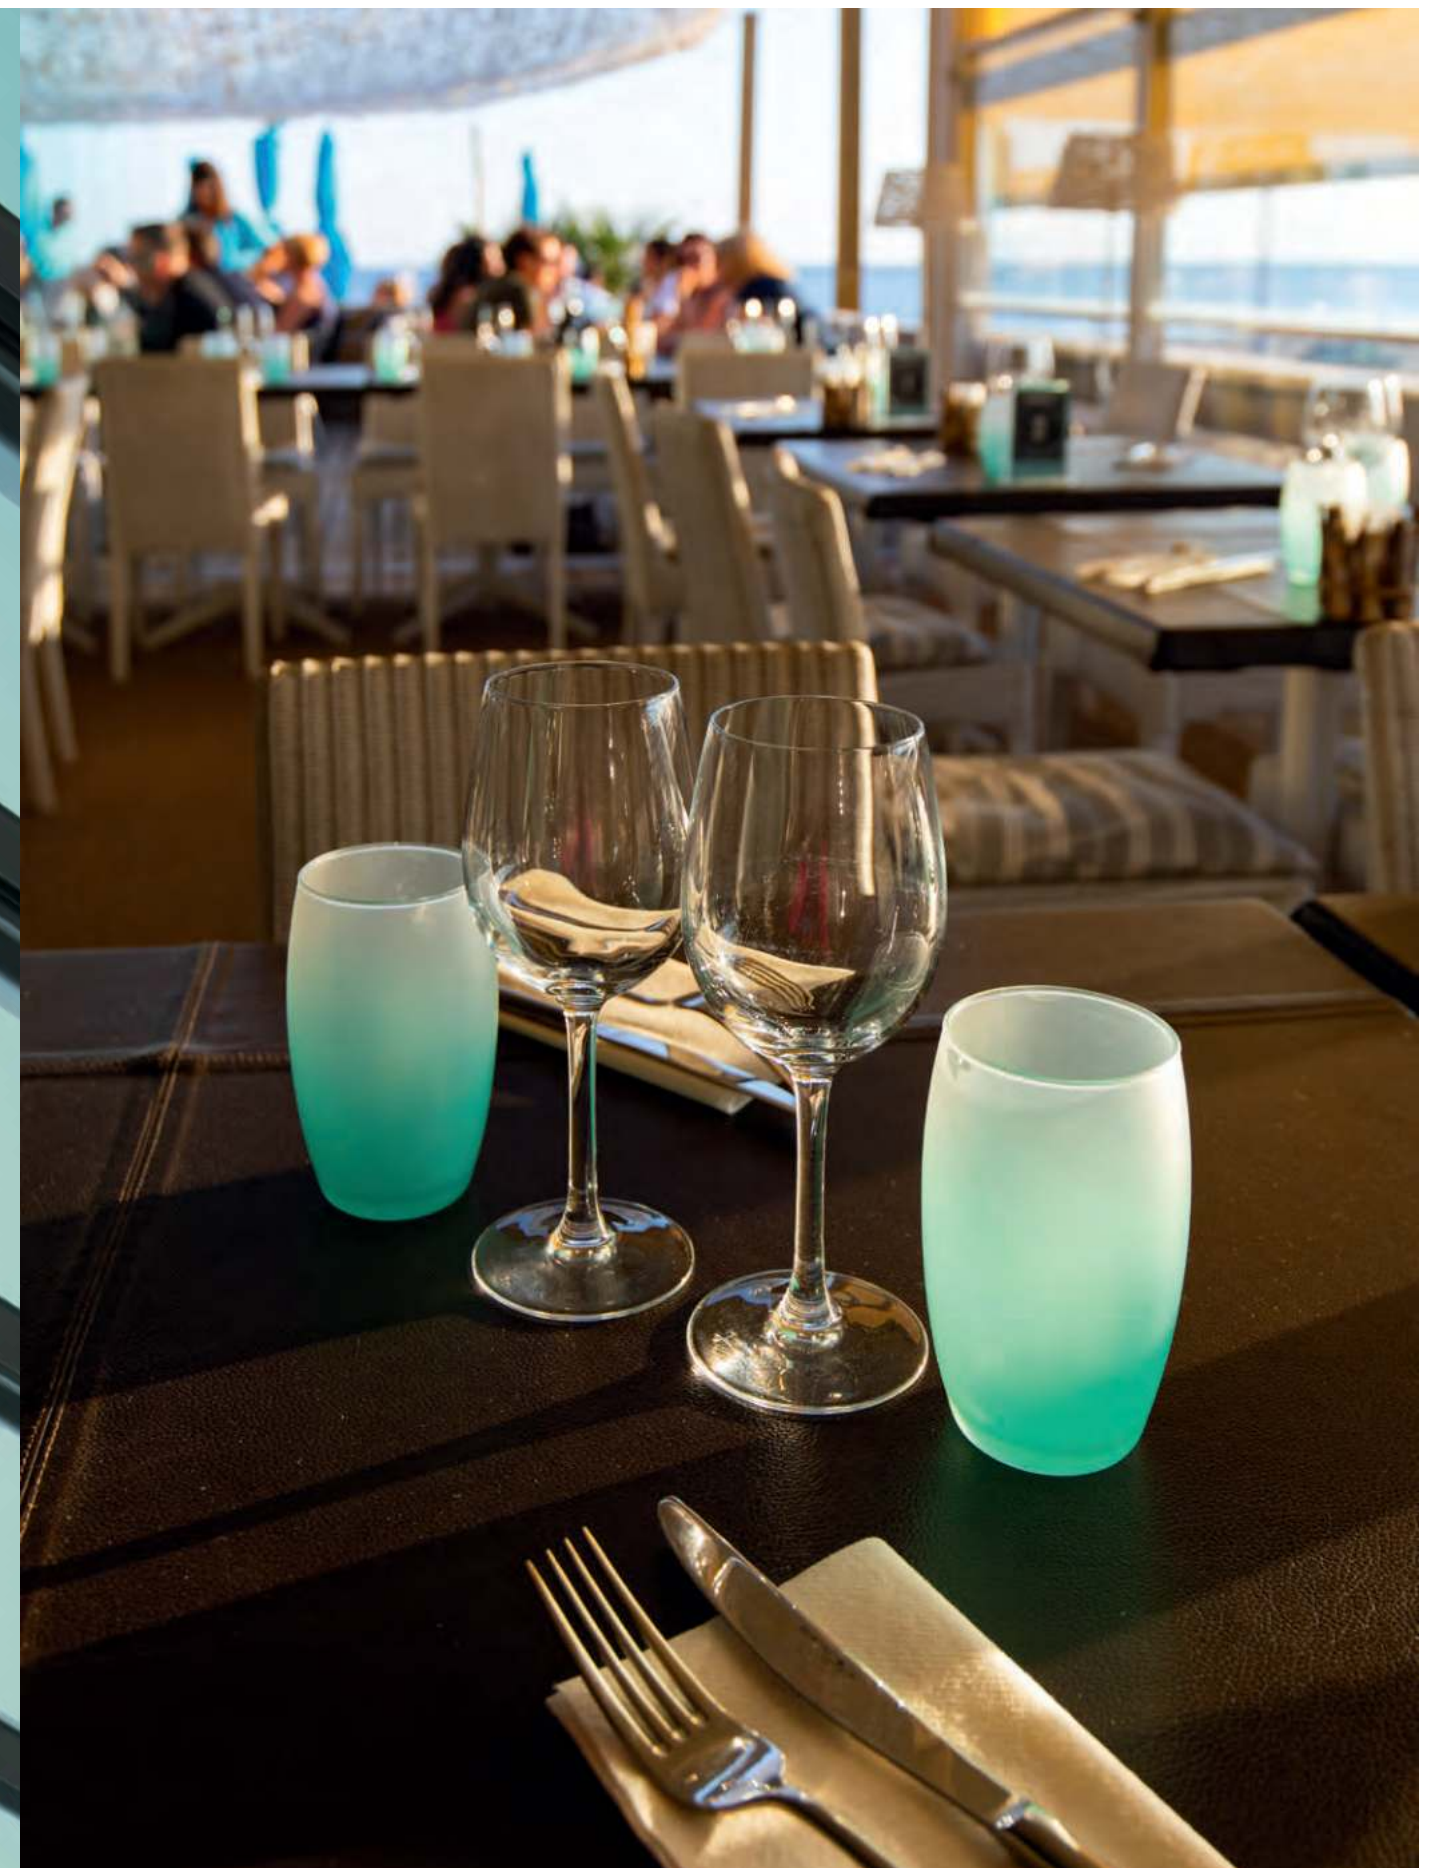

**350 colours and finishes and 50 architectural shades available.**

Take a deep breath,  
*break down*  
*barriers*  
and redesign  
your space with  
Biossun.

La Jabotière - Royan (17)

Holiday Marina - Port Grimaud (83)

Thalazur - Arcachon (33)

Font Mourier - Cogolin (83)

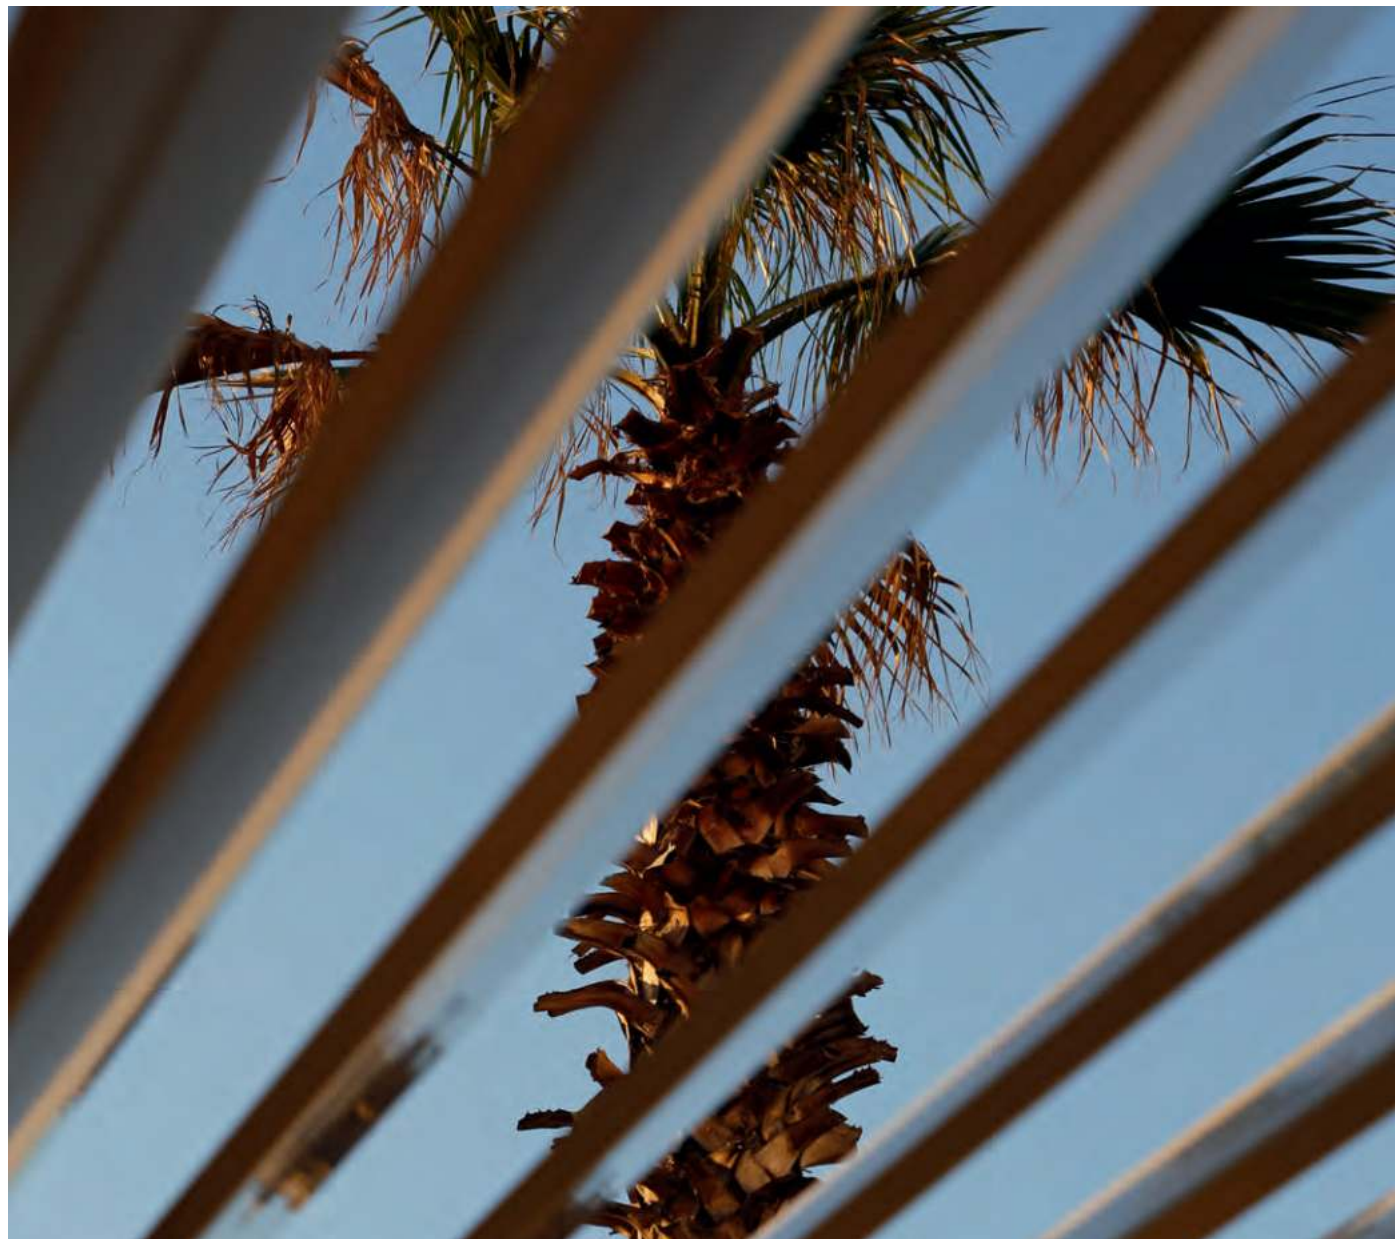

Le Muse - St Tropez (83)

Le Fanal - Banyuls (66)

Forget clients  
who hurry away  
from their tables,  
*and increase your  
average bill spend...*

A bioclimatic terrace is like a well-made dish. It's all about finding the balance between creation and expertise. An experience which invites your guests to savour the moment and spend longer enjoying the atmosphere, even as the seasons change. All owners of establishments who have already equipped their terraces agree on one thing: clients who are seated comfortably prolong their meal times, thereby increasing the average spend.

Forget  
*the essential*  
and focus on  
**THE EQUIPMENT.**

*While your comfort is never an add-on,  
you can decide to add to  
your Biossun pergola at a later time,  
as your requirements for your outdoor  
space change.*

Forget barriers  
and have *complete freedom*  
to equip your terrace...

## LOP

An offer you can't refuse.

The experience we have gained in contact with professionals from the hotel and restaurant industries enables us to come up with new solutions adapted to their activities. This means that Biossun is now able to offer each establishment a bioclimatic pergola under LOP (Lease with the Option to Purchase, valid in Metropolitan France and Monaco). To better assist you in your project, please contact Biossun for any further information you may require.

Forget  
*barriers,*

WITHOUT COMPROMISING SAFETY.

*More than 3000  
hotels and restaurants  
have put their trust in us  
to bring more comfort to their terraces  
and enhance the aesthetics of their patios,  
gardens, pool houses, spas,  
and swimming pools...*

*Each project is unique and meets  
precise technical specifications,  
profitability targets  
and service quality objectives.  
Get inspired by visiting [biossun.com](http://biossun.com)  
and discovered the projects  
we have already completed  
for all types of establishments  
serving the public.*

BY Cert. 6028275

Bureau Veritas Certification has evaluated Biossun's bioclimatic terrace manufacturing activities, and certifies that its products have demonstrated compliance with the requirements of the reference standard: GUARANTEED OF FRENCH ORIGIN. Certification number 6028275.

All components of our pergolas benefit from continuous aluminium thermal coating controls in order to guarantee a high-quality finish and protection.

The standard allows Biossun structures to benefit from the best possible protection against the effects of acids and alkalines.

To check their resistance, Biossun has tested its terrace covers in both normal daily and extreme climate conditions. This means an ability to withstand wind speeds of almost 200 km/h, evacuation of rain water at intensities categorised as high (130 mm/h) to very severe (170 mm/h), and the impact from dust or sand storms have all been tested by the C.S.T.B (Scientific and Technical Centre for Building). Certification references EN-CAPE 12.208 / EN-CAPE 12.209 & EN-CAPE 13.131 C-V0.
